ABOUT US

We design tailor-made adventures in Baja according to your travel brief, always focusing on the experience itself.

What's your itinerary? **Whatever you want it to be.**

WHY BAJA?

Baja is the ultimate playground: 150,000 km² of un-chartered, breathtaking landscapes surrounded by one of the richest oceans in the world.

- _ Knowledge of the area
- _ First hand experience
- _ Tight relationships with the best operators
- _ Exclusive network of contacts
- _ Unique logistic and problem-solving capabilities
- _ Resourcefulness & Creativity

TRAVEL CRAFT + DESIGN

OUR WORKFLOW

HANDSHAKE

Your trip curator and/or expedition leader will sit down with you in person or over video-conference to get to know more about you and what makes you tick. Based on this, they will brief you in on what Baja has to offer within the different seasonalities, answer all of your questions, and bounce ideas with you until you're absolutely happy with the adventure we will design only for you.

TRAVEL BRIEF

Based on our previous discussions, we will send you a detailed Travel Brief with maps, pictures, itinerary, and detailed information on your activities. This document will also include the budget for your tailor-made #bajamylove experience.

GREEN LIGHT

Once we have polished all of your trip's details, add-ons (field expert, photographer, private flights, driver... etc), and final adjustments on your Travel Brief, we send you an invoice and your adventure is on.

BAJA EXPERIENCE

The date arrives, and you're in the hands of the very best for each and every aspect of your trip.
